ID CARD LASER ENGRAVING MACHINE

CPL300

ID Card Laser Engraving Machine

MODEL
CPL300

Security Guard of ID Card Personalization

The CPL300 is an industrial-grade desktop laser personalization system for centralized and decentralized applications. It is mainly used in the production of high security credentials such as National IDs and Driver Licenses. The CPL300 supports multiple security features, including CLI/MLI, microtext, tactile effects, VIPhoto®, and DataScreen®, making documents forgery and manipulation all but impossible.

Key Features

- High-resolution laser engraving, up to 1200dpi
- Multiple security features, such as CLI/MLI, microtext, tactile effects, VIPhoto®, DataScreen®, Doc-U-Lok®, etc.
(VIPhoto®, DataScreen®, Doc-U-Lok®, registered trademark of GSSC)
- Contact, contactless and magnetic stripe encoding
- Double-sided engraving
- XY autopositioning, OCR, Barcode reading
- Modular and industrial design

Operation Interface

Application Scope

National IDs

Driver Licenses
